EvoTools Job Costing Centre

User Types

The Job Costing Centre has two types of users which can be purchased depending on your organisational needs. These users are explained below.

Administrators

This user has full control and access of every part of the system, from user administration, access control, creating new projects, inventory management, billing and much more. Suitable for management personnel.

Field Users

Perfect for project managers and staff out on the field. Access to the system covers the entering of timesheet or project data to their project.
